

Orange Star Piperunner instructions

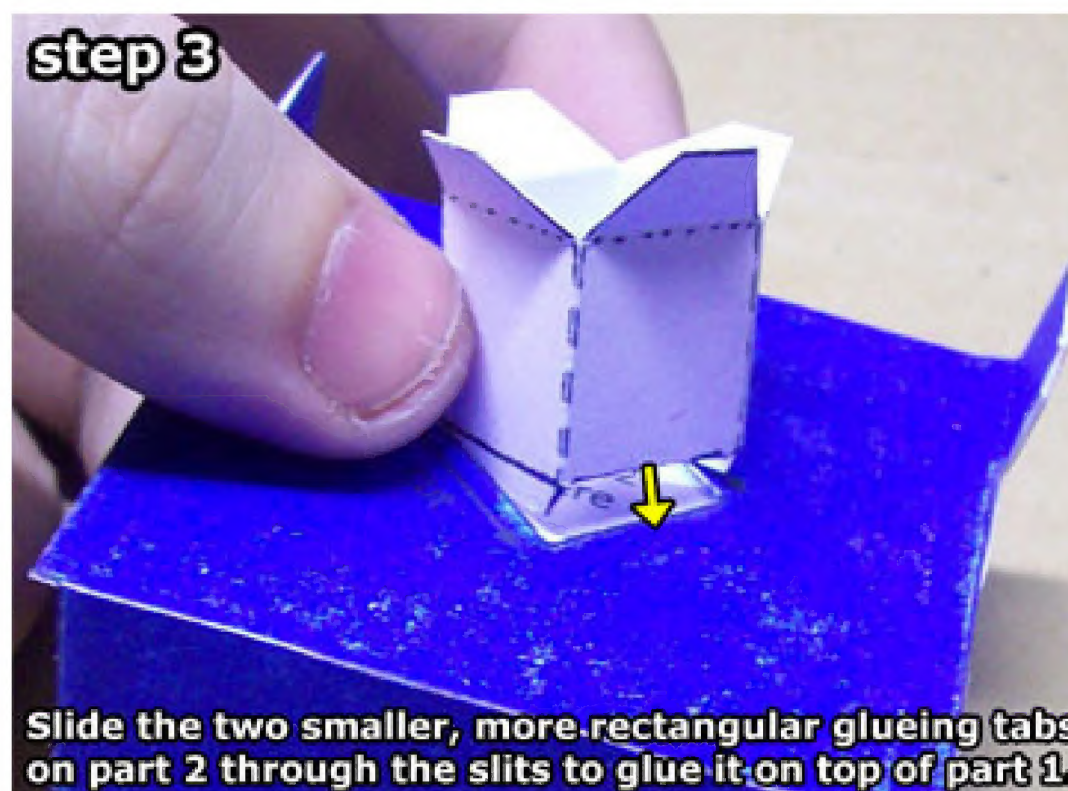

step 1

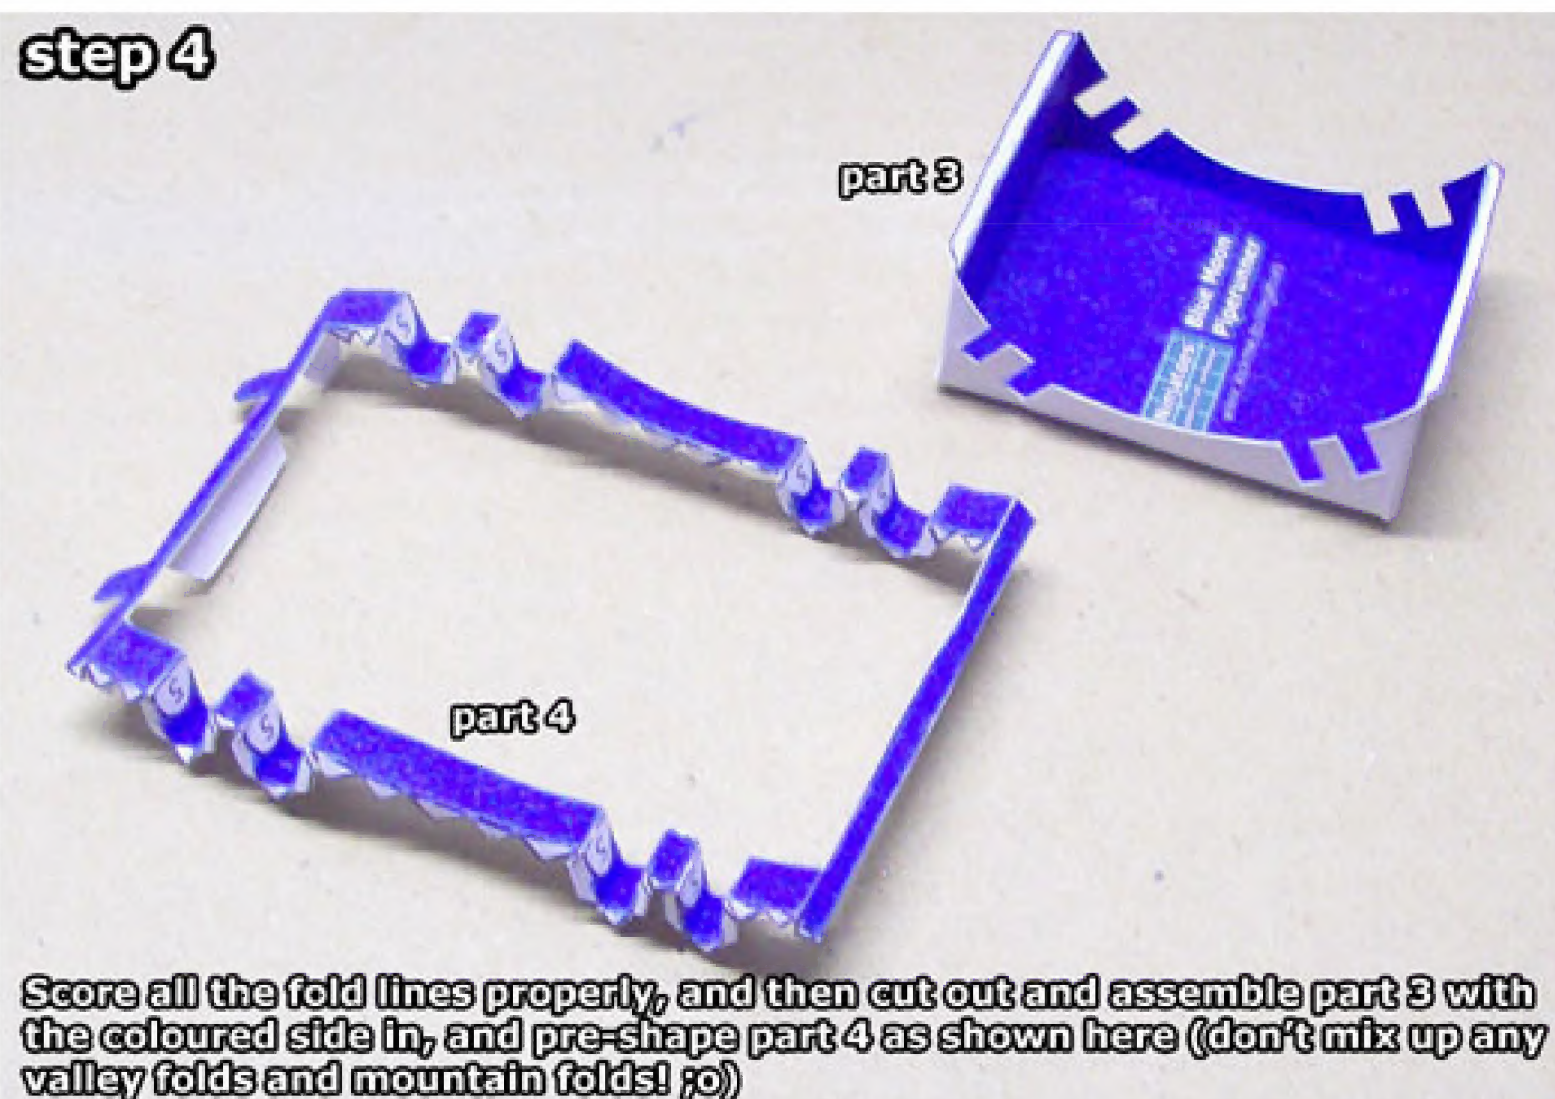

step 2

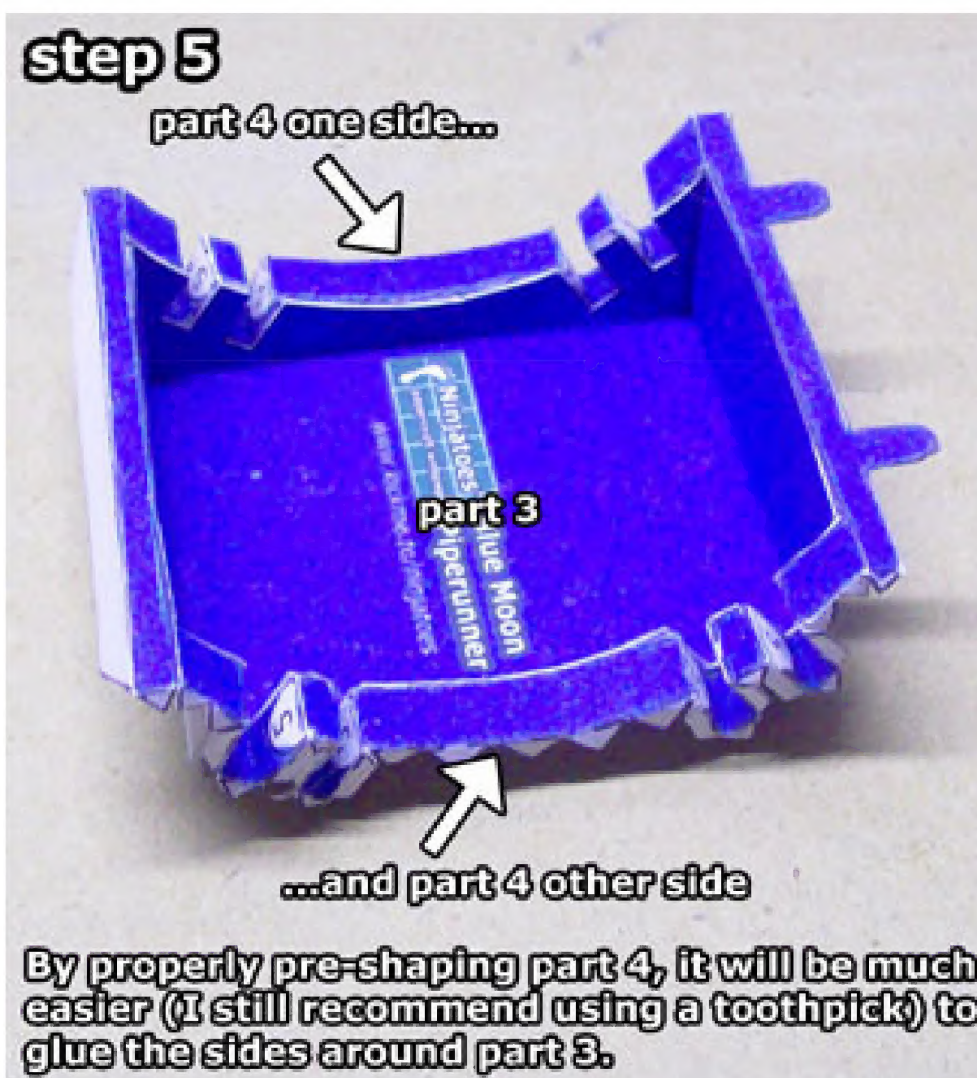

step 3

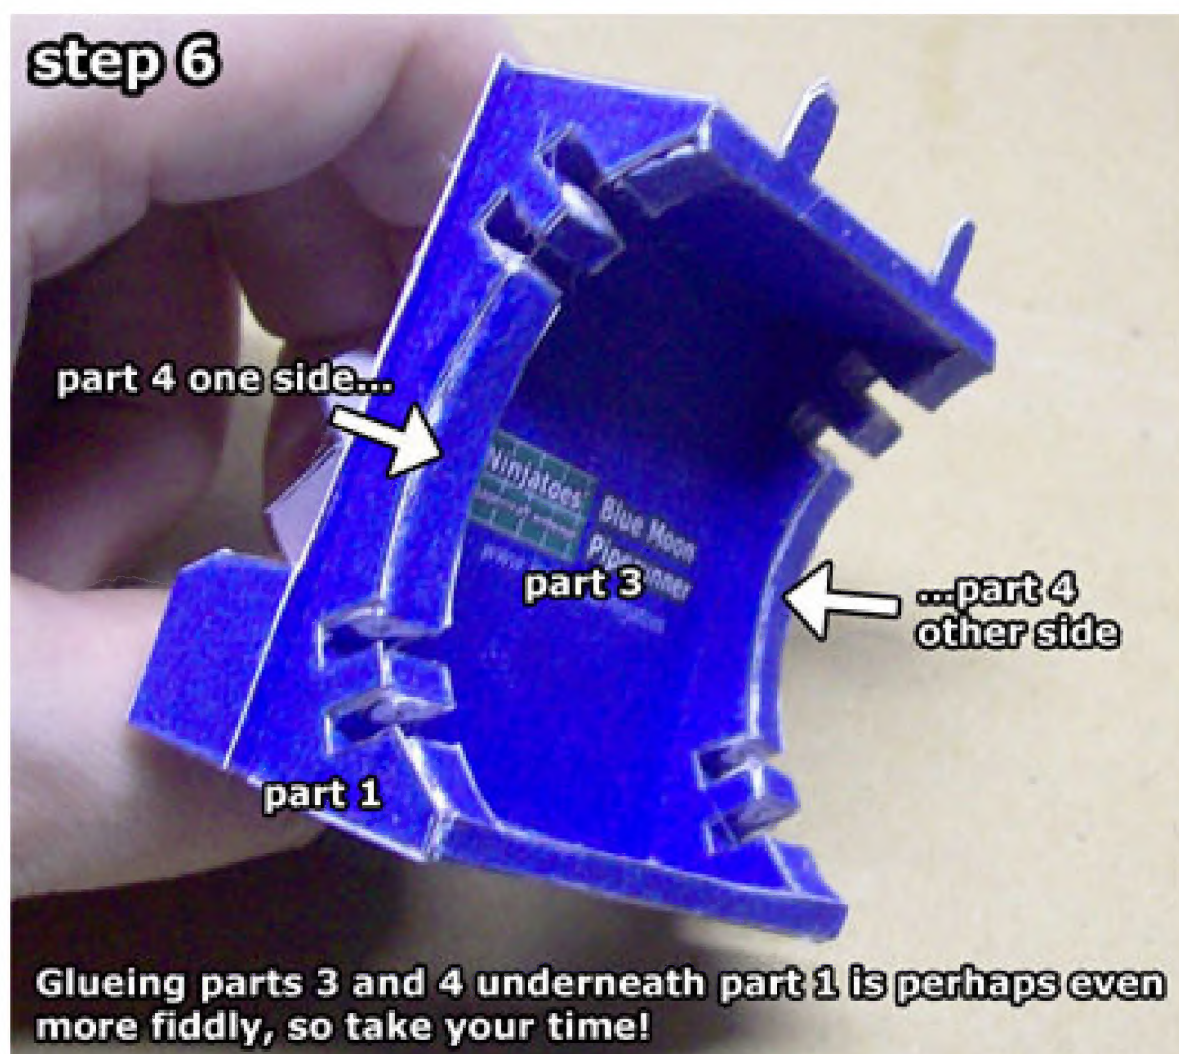

step 4

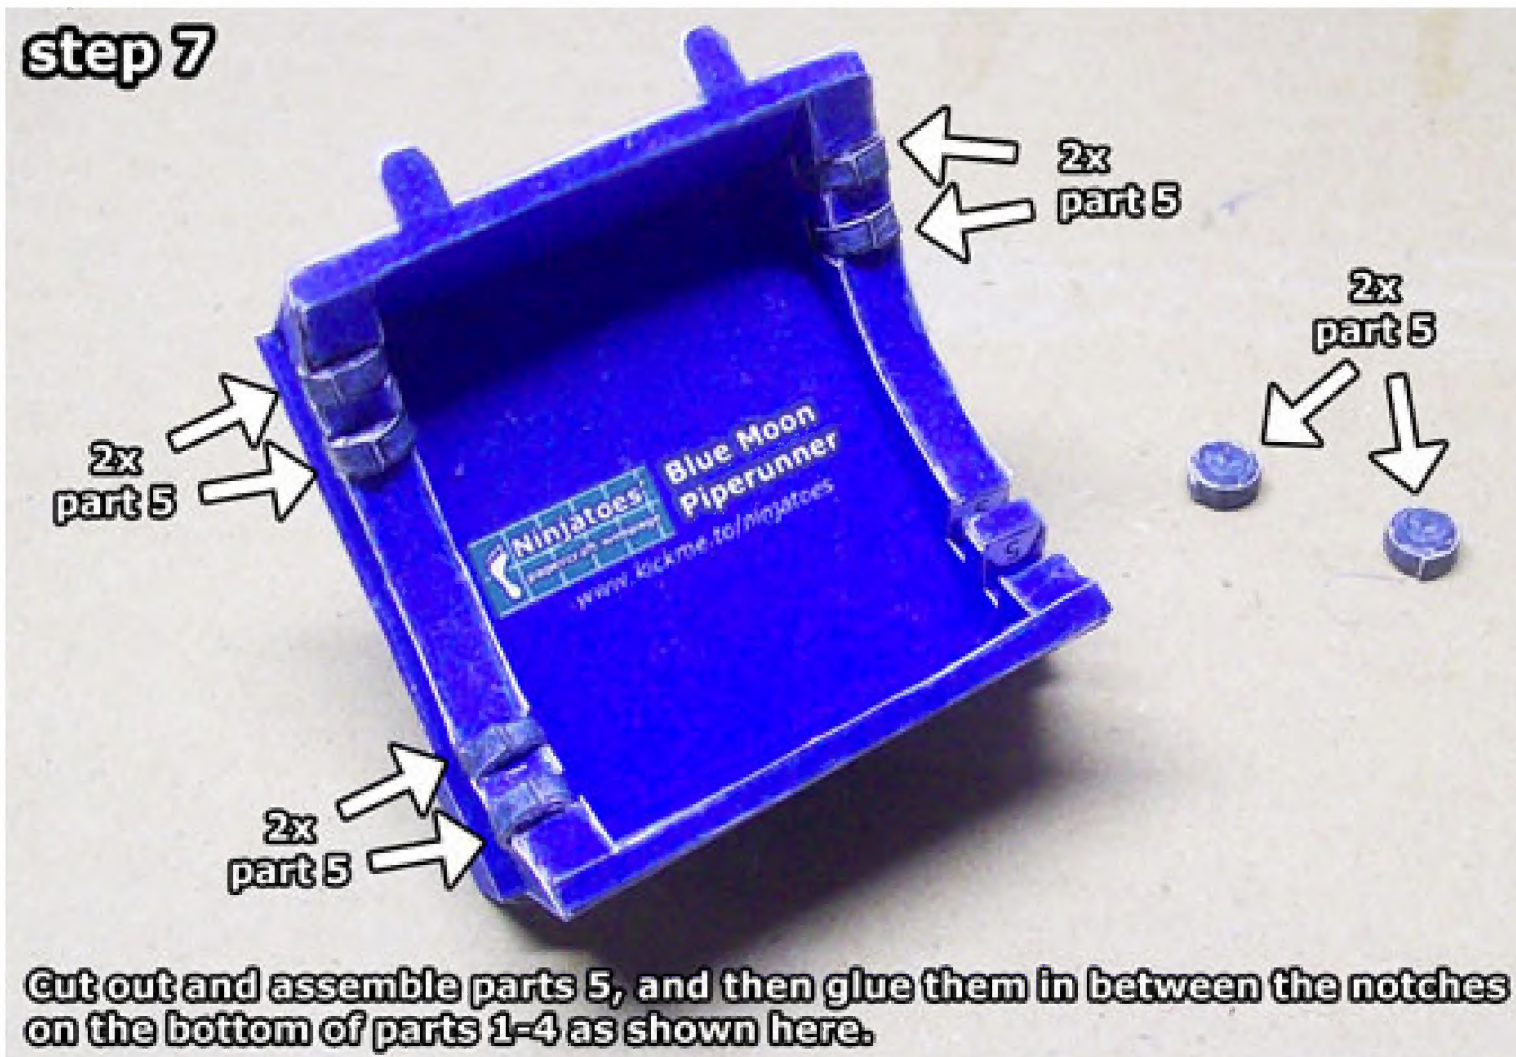

step 5

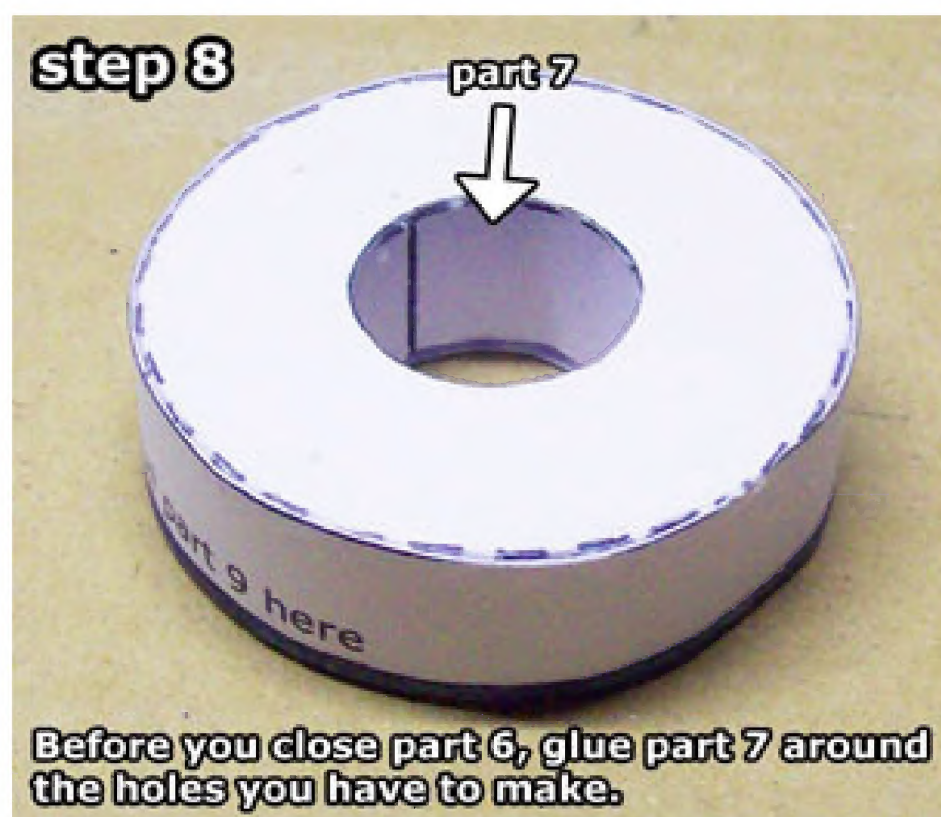

step 6

step 7

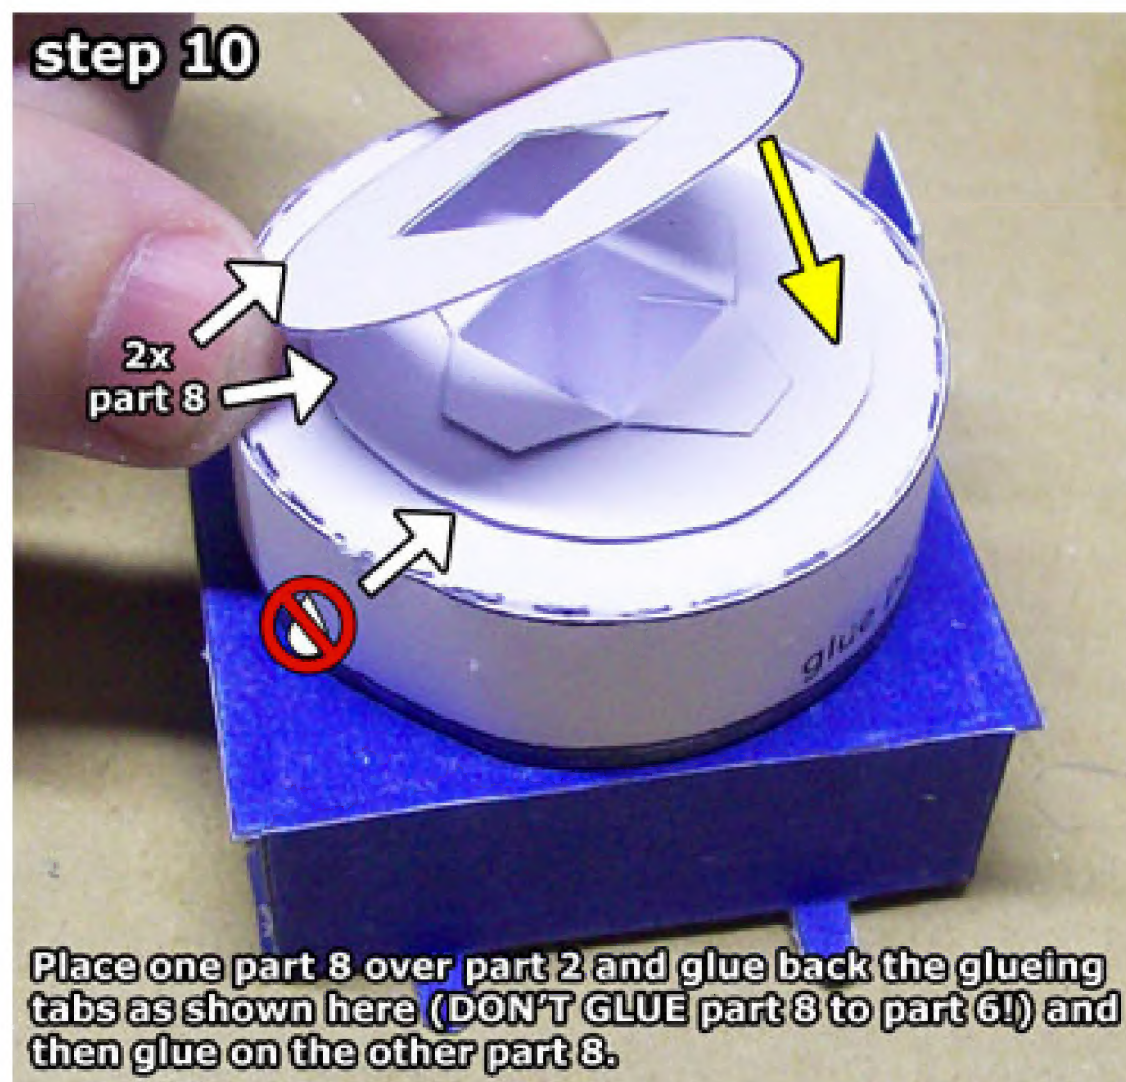

step 8

step 9

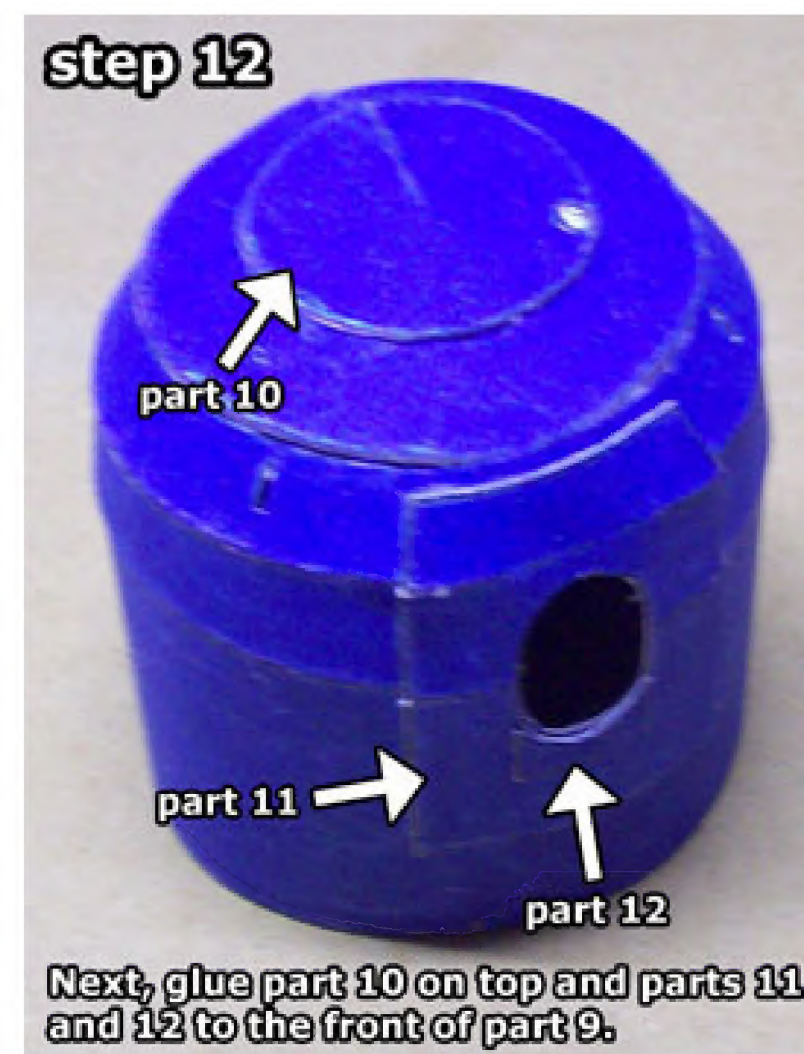

step 10

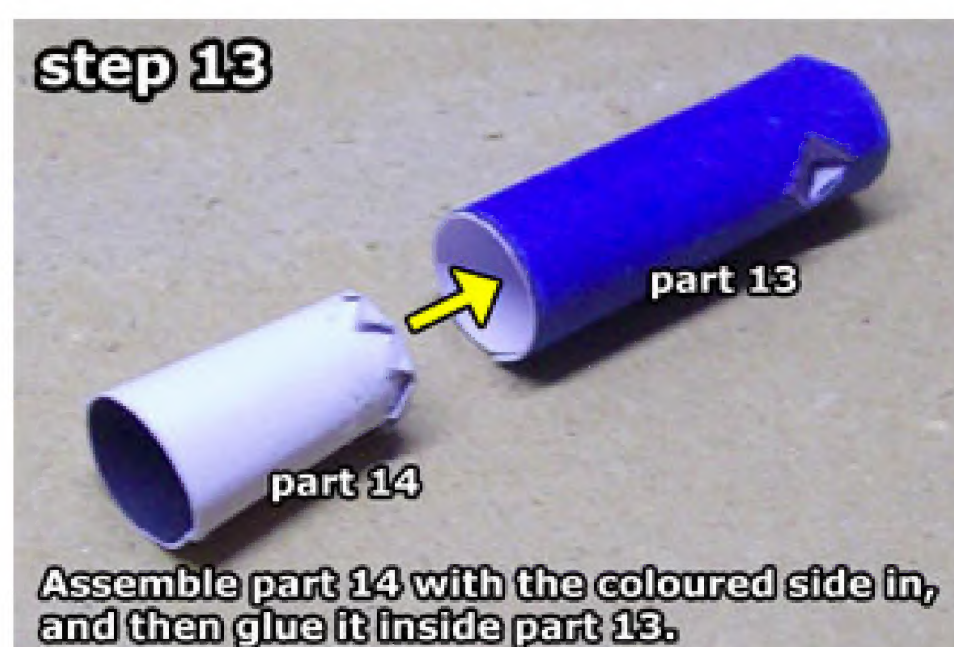

step 11

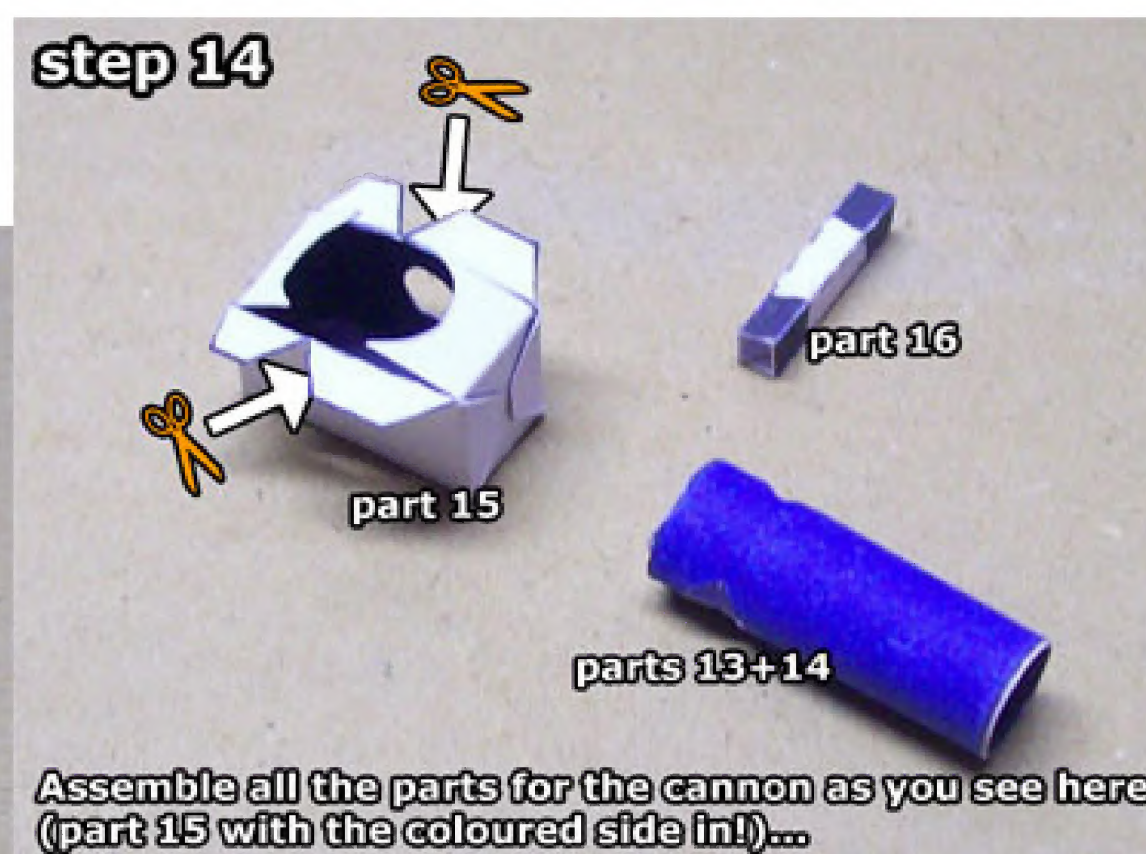

step 12

step 13

step 14

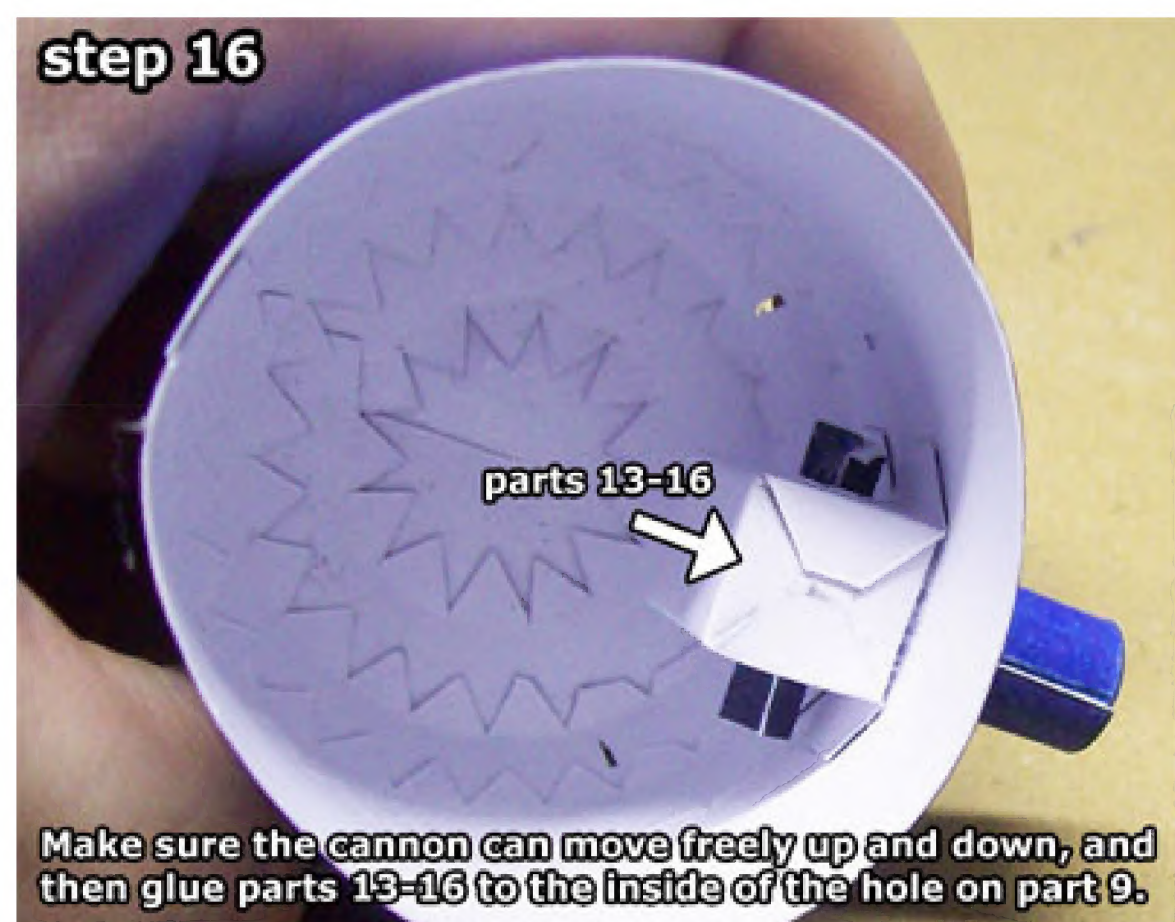

step 15

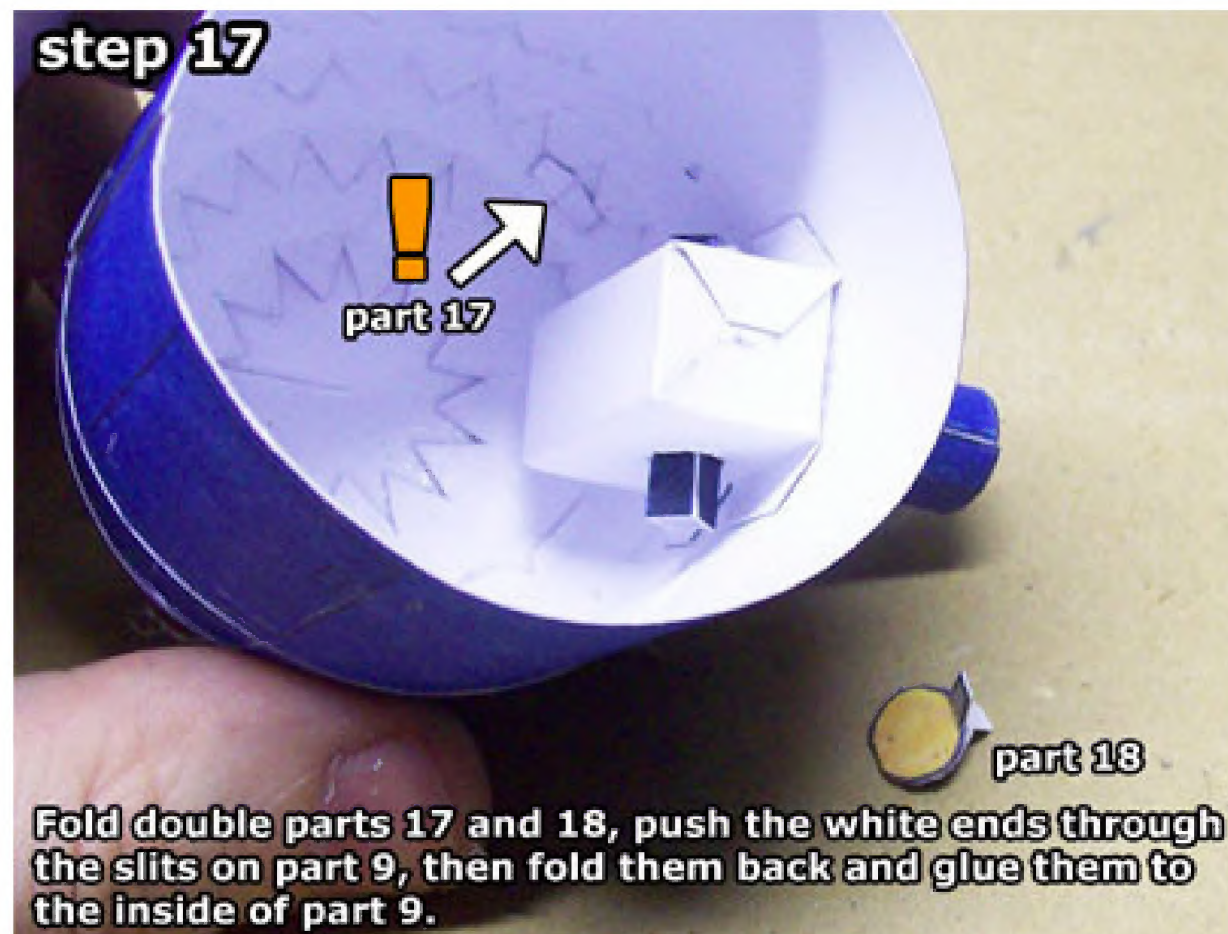

Then place parts 13+14 inside part 15 (aligning the holes) and then push part 16 through the holes in both part 15 and parts 13+14.

step 16

Make sure the cannon can move freely up and down, and then glue parts 13-16 to the inside of the hole on part 9.

step 17

Fold double parts 17 and 18, push the white ends through the slits on part 9, then fold them back and glue them to the inside of part 9.

step 18

Now cut out and assemble part 19 and glue it on top of part 10.

step 19

Now slide parts 9-19 over part 6 up to the grey line. It should be a tight fit, so use the glue as lubricant ;o)

Thank you for building a Ninjatoes' papercraft model!
